Discussion of the § 103 Rejections in Paragraph 5. Of the Action

The Examiner has rejected Claims 1 to 6, 10 to 13, 30, 35, 44, and 45 under § 103 based on Stokbroekx et al (EP 0 398 425). It is submitted respectfully that amendments to independent Claims 1 and 30 overcome the § 103 rejections of these claims.

Claims 1 and 30 have been amended by adding the term "H or" to the definition of  $R_{23}$  in the exclusionary clause recited towards the end of the aforementioned claims, thus excluding compounds where R is carboxyl when X is O or when S and Y are hydrogen. Claims 31 to 33, 46, 66, 86 to 89, 92, and 93, all of which contain the similar exclusionary clause, have been amended in the similar manner. Accordingly, applicants request respectfully that the rejection be withdrawn.

Discussion of the § 112 Rejections in Paragraph 7. Of the Action

It is submitted respectfully that amendments to Claims 1, 9, 25, 27, 29 to 33, 37, 46, 54, 66, 74, 86 to 89, 92, 93, and 104 overcome various of the §112 rejections of these claims, as discussed below in paragraphs which correspond to various of the subparagraphs which appear in paragraph 7. of the Action.
